DELAWARE DEMOCRATS.

ENTHUSIASTIC INDORSEMENT OF SENATOR BAY-ARD FOR THE PRESIDENCY AND A VIGOROUS ABBAIGNMENT OF THE REPUBLICAN PARTY. Dover. Del., June 13, 1876.

The Democratic State Convention met here to-day. A full representation of delegates from the three counties of the State was present. Caucuses were held by the three delegations provious to the assembling of the Convention, that of Newcastle county, in which Wilmington is situated, being of so long dura-tion, on account of a contest, as to con-siderably delay the meeting of the general body.

The struggle in Wilmington was between the friends of Mayor Whittley and John O'Byrne, two leading politicians, as to who should be delegated to the St. Louis Convention. O'Byrne was defeated. Robert G. Reynolds, Chairman of the State Committee, called the Convention to order and nominated Thomas E. Ricords, of Sussex, as temporary chairman, who was

PERMANENT ORGANIZATION having been appointed they reported the nomination for President of the Convention of J. Alexander Fulon and a number of Vice Presidents and In his speech upon taking the Fulton spoke of the flagrant cor-

uption which now prevails in our government. He regretted the fact that of late it is not an assur nce of good character to find a man in public office. It was not so in the olden times, and it was one of the prable and suggestive year, the primitive condition of our government. He pointed with pride to the record of Deleware. For fourteen years since she had been under democratic control, they challenged investiga-tion into the character of their public officers. Not ne cent had ever been lost by a defaulter. It was therefore appropriate that Deleware should urge reform. In closing the chairman urged

as a candidate for the Presidency without mentioning him by name. The Committee on Credentials reported against the admission of five delegates from the New Hundred of Blackbird, reducing the number of dele-gates for Newcastle county to fifty-five and the same as the other counties. A long two hours' debate ensued.
The matter was finally settled by allowing sixty to each

THE RESOLUTIONS.

The democratic party of Delaware, strong in its ancient faith and loyal to the principles of free government upon which the Union was founded, declare—

First—That a strict advance to and maintenance of the limitation of power contained in the constitution is the sheet anchor of our institutions on which the safety of the future depends.

the limitation of power contained in the constitution is the sheet anchor of our institutions on which the safety of the future depends.

Second—That the attempt of the federal administration, now in radical hands, to absorb the political powers of the states, to control election to office, by Congressional legislation and Executive interference, and to substitute a centralized government for the home rule of the constitution, be viewed with airm and should be met with the rebuking ballot of a free people.

Third—That the republican party, now in power, has prostituted its high trusts to personal and party ends, and by its flagrant corruption brought upon us national humilitation and disgrace.

Fourth—That this attempt of President Grant and his advisers to thwart the democratic blone of Representatives in the exposure of official fraud and malfansance is an outrage upon the whole people, whose servants they are.

Fifth—That the necessities of the times imperatively demand a return to the homebred virtues of our ancestorshonesty and economy in the administration of public affairs and those methods of government which will secure a real civil service returns by cutting off a multitude of unceressary offices and naking preference no longer a reward of party seal.

CHA—That the surrency of a neonle should constitute in

a real civil service recorm by cutting off a multitude of unconcessiny offices and making preference no longer a reward of party seal.

Sith—That the currency of a people should constitute in livelf a standard and measure of value as well as a circulating medium of exchange, and that to coin money out of gold and silver was the only power on the mbject delegated to Congress by the constitution. The disregard of this limitation of power and the introduction of our irredeemable naper currency, have caused an environistic or an interest of the public debt, and has resulted in perilous extrawagance and which speculation, and consequent hankruptcy and ruin. That the people of Delaware recognize with pride and picasure the eminent public services of Senator Fhomas F. Bayard; that in all public trusts he has been faithful to duty, and his public and private life is without blemish. We therefore declare that he is our manimous choice for the Presidency of the United States.

Resolved, That the delegates to the dem cratic Convention be instructed to east the evic of Delaware for him and to use all honorable means to seear his nomination.

The following delegates to St. Louis were chosen—Dent county, Ex-Governor Gove Saulsbury and John W. Hail; Newcastle county, Hon, W. G. Whiteley and George Gray; Sussex county, E. L. Martin and Dr. Charles H. Richards.

MAINE DEMOCRATIC CONVENTION. MR. TALBOT NOMINATED FOR GOVERNOR-STRONG RESOLUTIONS URGING TILDEN FOR THE PRESIDENTIAL NOMINATION.

BANGOR, June 30, 1873. The Democratic State Convention was called to order this morning by E. F. Pillsbury, of Augusts. J. C. Madigan, of Houlton, was made temporary chairman T. H. Gelchett, Benjamin T. Milliken and Percival J. Paris were chosen secretaries. Mr. Madigan delivered brief address, which was greeted with applause, all the delegates rising to their feet. General Anderson was called for and briefly addressed the Convention on the corruptions of the day, arraigning the republican party for the same. The temporary organization was country delegations then consulted and reported a state Committee, a Committee on Resolutions and one

State Committee, a Committee on Resolutions and one vice president from each country.

The Convention reassembled at ten minutes past two P. M. A ballot was taken, which resulted in the choice of Samuel J. Anderson, Samuel Wall, Frank W. Hill and S. D. Leavitt as delegates at large to the St. Louis Convention.

On a ballot being taken for Governor John C. Talbot received 311 votes of the 453 cast, and his nomination

was made unanimous.

Hampden Fairfield, John Varney, Edward Wilson and Darius Alden were chosen alternates at large. The resolutions call for governmental reform by introducing economy in the public service, striking down every abuse of power, and by the houset administration of the public affairs, lightening the public burdens and restoring peace and national prosperity. The services of the democratic House of Representatives in instituting investigations &c., and uncarthing corruption are commended. The inflation of the national currency is opposed.

are commended. The inflation of the universal lands is opposed.
The lourth resolution declares Samuel J. Tilden, the able, zealous, intrepid reform Governor of the Empire State to be the first choice of the Convention for President of the United States, and his nomination by the National Convention is recommended as eminently fit and proper.
The 14th resolution declares that it is the sense of the

The little resolution declares that it is the sense of the Convention that the rule adopted by the later national democratic conventions requiring two thirds of their delegates to concur in making their nominations, being at variance with the well established principles of majority control, should be abandoned. The Convention adjourned sine die.

NEW HAMPSHIRE'S SENATOR.

Coxcond, June 13, 1876. The canvass in the interest of the various candidates for United States Senator, who is to be elected in the Legislature next week, is being very actively carried on, but as far as can be judged the situation is no materially changed. There are certain rumors regarding the candidacy of Hon Onslow Stearns, one of which is that he contemplates withdrawing his name from the costest, but it is authoritatively denied. The contest is growing very warin, and the friends of both Hon. E. H. Rollins and Mr. Stearns claim increasing

strength.

At a republican caucus held to-night it was voted to hold a caucus to nominate a Schator on Thursday avening. It is thought the chances of Hon. E. H. Rollins have greatly improved and that he will be nominated on the first ballot.

SENATOR ANTHONY RE-ELECTED.

PROVIDENCE, R. I., June 13, 1876. The Rhode Island General Assembly met this morning at Newport and proceeded to ballot for United States Senator. Henry B. Anthony received 31 votes and Charles S. AMUSEMENTS.

GILMORE'S GARDEN.

This beautiful garden, which has now become one of the choicest summer resorts in New York, and which was once a Roman Hippodrome, has for the first time this summer regained its pristine glory. Offenbach and Roullard have given place to Gilmore and his band. Offenbach was not exactly at home in the garden. One rather too much for the Franco-German in-ventor of the diablerie of opera bouffe. Next, opera bouffe was elevated to an undue degree of importance, in an orehestral point of view, which the public rendily realized. The advent of Max Maretzek, the most popular of all operatic managers, and a thorough adept in all the "ways that are dark and tricks that are vain" of the average orchestra was a change for the better. Max infused new vitality into the garden concerts. Gilmore came back on Saturday the garden concerts. Gilmore came back on Saturday night with his big military band, which he has now brought to a standard of discipline not only higher than anything heretofore known in this country, but little less than the organizations known in Europe, as Les Guldes, of Brussels; La Garde Republicatione, of Paris, and the Hungarian band of the Emperor of Austria. The band is better than ever. It may be interesting to musicians to know the component parts of this band. They are as follows:—Two piccolos, two F flutes, two D goncert flutes, one A flat piccolo clarinet, two E flat clarinets, four control B flat clarinets, six second B flat clarinets, four fourth B flat clarinets, four fourth B flat clarinets, four saxophones, four fagotti, four obod, two alto clarionets, one bass clarionet. This comprises the family of reeds and other wood instruments in Gilmore's band. The brasses consist of one E flat cornet, two first B flat cornets, two second B flat cornets, two E flat trumpets of the most improved kind, two fluegel horns, six French horns, three alto horns, two B flat tenor horns, two baritone B flat horns, four trombones, five bass tubas and a small army of instruments of percussion. Over 100 musicians make up this band. Gilmore has succeeded in reducing this musical force into perfect shape. Last night his programme was an ambitious and a varied one, extending all the way from Smith up to Verdt. Arbuckle and Levy played cornet solos. Levy comes back to New York with an embouchure unimpaired and with a cornet delivery more brilliant and more effective than ever. SUICIDE OF A DRUG CLERK.

Coroner Woltman beld an inquest yesterday afternoon in the case of William Gerhardt, drug cierk, who

ceased, and reside on Cortlandt avenue, between 156th and 157th streets; my husband was a drog clerk, and until the 1st of last January was employed as travelling clerk by Lozel, Marsh & Gardner, of Gold street; since that time he has been out of work and unable to earn any money, although he tried hard. On Monday night any money, although he tried hard. On Monday night at nine o'clock he called me and said that he had taken morphine and wanted to bid me goodby. I ran for Dr. Zengre, on Cortlandt avenue, who soon arrived and gave him an emotic; several physicians treated him till he died, which was attwo o'clock this afternoon; I know of no other reason for my husband having taken the poison than that he could not bear the thought of being unable to support me and the children.

Dr. Cushman testified that he made a post mortem examination and that death, in his opinion, was caused by an overdose of acetate of morphine.

The jury returned a verdict that deceased came to his death from morphine administered by himself while laboring under a temporary aberration of mind.

ATTEMPTED SUICIDE.

A young woman named Josephine Serrill, having a child in her arms, applied for lodgings at the police staten in Newark on Monday evening, while under the staton in Newark on Monday evening, while under the influence of liquor. She objected to being locked in a cell by herselt, and said if she was lett sione she would put an end to herself. The officer who locked her up soothed her lears and departed. On visiting her shortly atterward he discovered her hanging by the neck to one of the bars of her cell door. She tied her handkerchiet and stockings together and then fastened one end to the bar, meking a slip nosse with the other end round her neck. She then caught the child in hergarms, and dropped down nearly to her knees. She was almost strangled before she was cut down.

MAN ROASTERS ARRESTED.

In yesterday's Henaub a report was given of the roasting of the feet of a man named Heironymus Inderweis by three men, who adopted this mode of torture in order to to compel him to tell where his

INCENDIARISM IN BROOKLYN.

About one o'clock yesterday morning a fire was disovered in the livery stables of George W. McDonald, Nos. 503 to 597 Atlantic avenue, Brooklyn. The flames were extinguished without much loss. The act was learly that of an incendiary and might have led to clearly that of an incendiary and might have led to loss of life. In the upper part of the building was Edward Brennan, his will and one child, and in the lower part of the stable were twenty-seven horses. The stable door was looked at eleven o'clock on Monday night by Morgan Lacey, one of the workmen, and, having occasion to go into the stable at one o'clock, he discovered the fire, which was burning against the woodwork in the office. An old mattress had been saturated with kerosene oil and left burning. A large fire was also found between the beams under the stairs. No clow has been obtained as to the incendiary.

OFFICIALS IN OPPOSITION.

The contest between County Physician Stout and the coroners in Jersey City has been carried to a disgrace-ful extent. Coroner Gaunon has not held an inquest for seven weeks because Dr. Stout refused positively to "throw anything in his way." Coroner Gannon, howcever, took steps yesterday to curb the power of the County Physician. The body of an infant was found on the street last Sunday morning. Dr. Stout, without making any investigation, gave a permit for burial. Coroner Gannon interfered, and had a post mortem examination made, which revealed the fact that the child had been born alive and must have been strangled. He will accordingly hold an inquest on Saturday evening.

NEWARK POLICE INVESTIGATION.

The investigating committee appointed to examine charges of tilegal conduct preferred against Chief of Police John Mills concluded the public hearing of witnesses on Monday night and afterward went into secret session. Alderman William Ure then produced affidavits, in which it 's alleged that the Chief received early \$200 in payment of licenses for show nearly \$200 in payment of licenses for show and exhibitions in April and May last and failed to account to the City Clerk for the money. In answer to the charge Chief Mills said that he left the entire control of the moneys collected and the keeping of the books in the hands of his clerk, Mr. Samuer Richardson, and that he always signed the receipts in biank, and gave them to Richardson to use as occasion required. The committee then adjourned until Thursday evening when another scret session will be held.

Yesterday morning Riccardson was arrested charged by Chief Mills with embezziement. Previous to his arrest he made affidiavit that he took only \$50 of the missing money. He was released on giving bail in \$200 to answer the charge before the Grand Jury.
